

## Did You Know?

# ENTEK offers health and wellness checks!

ENTEK offers a variety of health and wellness inspections to keep your investment healthy.

### Categories include but are not limited to:

- Critical Mechanical Health Checks
- General Mechanical Wellness Checks
- Customized Electrical Checks
- Customized Maintenance Checks

### A scheduled health or wellness check includes:

- ✓ A pre-visit checklist and planning call
- ✓ One-day on-site extruder check-out by a trained technician
- ✓ A comprehensive report on the findings

**Contact ENTEK to request a quote for your health and wellness needs.**

The following is a sample of our health and wellness topics:

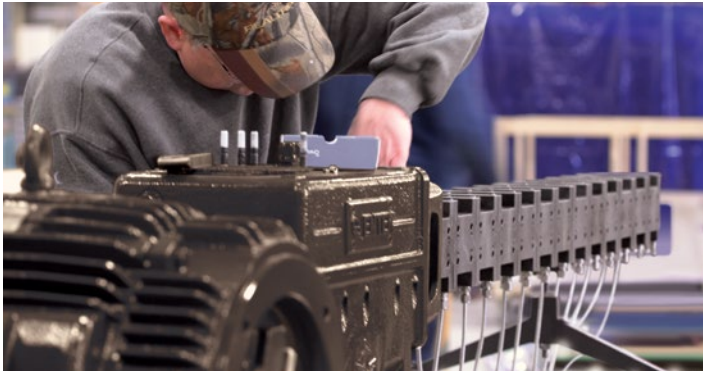

### **Critical Mechanical Health Check**

- Screw and barrel wear measurement
- Alignment and timing verification
- Heating and cooling zone checks
- Oil and coolant inspection and testing
- Safety checks

### **General Mechanical Wellness Check**

- Inspect ancillary ENTEK-supplied equipment
- Inspect condition of frame, doors, latches and hinges
- Inspect condition of drive splines and couplings
- Inspect systems for leaks, signs of wear
- Review for missing or damaged fasteners and/or hardware
- Review uncleared alarms and maintenance timers

### **Customized Checks as Requested**

RAISING EXPECTATIONS. KEEPING THEM THERE.
